Vertical Pale Malt – 2-row

Vertical Pale Malt is the foundation of any great beer. This great tasting, yet non-intrusive, two-row craft malt is grown and malted by Vertical Malt and comes with a complete pedigree. This pedigree includes barley variety information, planting and harvest dates, malting dates, and even field and section numbers so you know exactly where the grain was grown.

Vertical Pale Malt - Typical Analysis			
Moisture	Extract FGDB	Color	Total Protein
3.5 - 5.0	80 - 83	2.0 - 2.4	10.0 - 12.5

Vertical Extra Pale Malt – 2-row

Our version of Pilsen Malt, you get the same great tasting malt with less color for those times when keeping things light is important. Vertical Extra Pale Malt enjoys an exceptionally light delicate flavor making it perfect for light lagers and blonds. Our Extra Pale Malt is also part of the pedigree program and enjoys the same level of material certification included with our Vertical Pale.

Vertical Extra Pale Malt - Typical Analysis			
Moisture	Extract FGDB	Color	Total Protein
3.5 - 5.0	80 - 83	1.6 - 2.0	9.9 - 12.5

Vertical Red Wheat Malt

Wheat from the heart of the Red River Valley! Vertical Red Wheat is made from hard red spring wheat and has a wonderful, sweet wheat flavor. It is great for adding body, color, and fermentables to any brew. Vertical Red Wheat also participates in our pedigree program.

Vertical Red Wheat Malt - Typical Analysis			
Moisture	Extract FGDB	Color	Total Protein
4.5 - 6.0	77 - 81	2.2 - 3.0	14.5 - 16.5

Vertical Rye Malt*

This rye is grown by our friends at Far North Spirits where it is typically used in the distillery. After being approached to custom malt it for use in the distillery, we ended up liking it so well that we wanted to offer it to our other customers. A wonderfully complex malt with spicy sweetness that calls hints caramel and banana. It's a great way for any brew to stand out!

Vertical Rye Malt - Typical Analysis			
Moisture	Extract FGDB	Color	Total Protein
4.5 - 5.5	85 - 90	4.0 - 6.0	14.5 - 16.5

*On-hand quantities may be limited – call for availability

Aromatic Malt

Our aromatic malt is a taste of the Red River Valley. With subtly sweet maltiness and just a touch more color than our Pale malt, our aromatic delivers a malt that is versatile and delicious.

Aromatic Malt - Typical Analysis			
Moisture	Extract FGDB	Color	Total Protein
3.0 - 5.0	80 - 81.5	4.0 - 5.0	9.9 - 10.5

Caramel/Crystal Malt*

Our caramel and crystal malts add color and flavor to any brew. Made using the same great barley and malted under highly controlled conditions we can turn up the heat for a more intense malt sweetness and range of colors from 20° - 120° L.

Caramel/Crystal Malt - Typical Analysis			
Moisture	Extract FGDB	Color	Total Protein
3.0 - 4.0	78 - 80	20 - 120	9.9 - 10.5

*On-hand quantities may be limited – call for availability

Testing out our Munich Malt!

For sweetness and color look no further than our developing Munich Malt. Our Munich malt has been kilned in the traditional European style to provide the sweet and nutty complexity you need in your ales and lagers. While technically still in development, we are happy with the testing and think you will be too. For best results with the test malt, we recommend usage rates at no more than fifty percent.

Test Munich - Typical Analysis			
Moisture	Extract FGDB	Color	Total Protein
4.5 - 5.5	80 - 83	8 - 10	10 - 11.5

Porter Malt*

With a rich roasted/coffee flavor, our porter malt is a great addition to any porter or stout. Hints of sweetness reminiscent of burnt marshmallow balance the dry-roasted coffee flavor. Our porter malts are made to order for an extra punch of freshness and aroma.

Porter Malt - Typ. Analysis	
Moisture	Color
5.0 Max	300 - 375

*Please call ahead for quantities over 50lbs.

you expect from Vertical Malt

Quick Oat Flakes

From hazy IPA's to Oatmeal stouts, Vertical Malt offers quick oat flakes for your brewing needs. Our quick oat flakes deliver a smooth drinking beer or velvety mouthfeel to compliment your hop profile. Currently sourced from Canada and rolled by our friends at MGI Grain in East Grand Forks. While the processing of the oats will remain the same, our goal is to bring the cultivation of the oats in-house in the very near future allowing us to provide the same pedigree you expect from Vertical Malt

Custom Malt

If you are a brewer with a dream of something special and unique, we want to hear about it! We've developed several custom malts for brewers, distillers, and growers who all share the same passion for innovation and adventure. For more information on our capabilities for developing custom malts please call us at 701.203.3358.
